BUILDING AND IMPERVIOUS COVERAGE FORM

Impervious surfaces (anything covered by impenetrable materials such as asphalt, concrete, brick, stone, rooftops, etc.) are an environmental concern because, with their construction, they eliminate rainwater infiltration and natural groundwater recharge. Therefore, in order to calculate the Total Impervious Area (TIA) of your property, please use the information below to complete the chart on the following page.

FOR INFORMATION ON YOUR BUILDING COVERAGE

- **Property search:** Go to northwalesborough.org -> Permits, Forms, & Fees -> *Montgomery County Property Records* link at the bottom of the page (this brings you to Montgomery County’s website’s Disclaimer page) -> Agree. At this point, you should be at the address search page. You can search for your property by Address or Parcel Number.
- **Lot size:** Once you are at your property location, under the Profile section, you can find your Lot Size.
- **Accessory structures:** Check for any accessory structures which may have been reported.
- **Plot plan:** Under the Map section, you can print a copy of your Plot Plan.
- **Building Coverage:** Under the Sketch section there is information regarding dimensions of your house which can be added together. Garage information (FrGar) should be added under the “Garage” section. If information is provided for “CONCRETE PATIO” please include under Part B – Impervious Surface. *(Please add or adjust information as necessary).*

FOR INFORMATION ON YOUR ZONING DISTRICT

- Go to northwalesborough.org -> Codes, Plans, & Maps -> Zoning Map

REQUIREMENTS FOR NEW BUILDINGS AND IMPERVIOUS SURFACES

INFORMATION

Property Address	
Zoning District	Plan Scale

Part VI – Grading

A stormwater management plan is required for the following projects:

- Adding 1,000 sq. ft. or greater of impervious coverage.
- Installing stormwater management BMPs.
- Altering the natural hydrological regime.
- Installing diversion piping or encroachments in any natural or manmade channel.
- Creating an earth disturbance of 5,000 sq. ft. or greater.

Project Information

Description of Proposed Project
Description of Existing Use

Each application shall include a copy of the project site plan, unless the plan is larger than 11" x 17" in which case three (3) copies shall be provided. Please refer to Chapter 180, Wissahickon Creek Watershed Stormwater Management of the North Wales Borough Code for the site plan requirements (Note that certain permit requirements may be waived by the Borough at the discretion of the Borough Engineer depending on the purpose and complexity of the application).

Part VII - Authorization

I agree to comply with all applicable codes, statutes, and ordinances and with the conditions of this permit; I understand that the issuance of the permit creates no legal liability, express or implied, on North Wales Borough; and certify that all the above information is accurate. Furthermore, it is clearly understood and agreed to by the applicant and property owner that the Borough office is not responsible for any property dimensions shown on the site plan and establishment of property lines is the sole responsibility of the property owner and applicant. The applicant and property owner also agree that they are responsible for the replacement and repair of any Borough road to Borough standards which is damaged during the permitted construction. Permit expires if work is not started within (6) months, not completed within (12) months, or if work is discontinued for (6) months in the judgment of the Borough. The Building Inspector, or the Inspector's authorized agent, is authorized to enter the premises for which this permit is sought at all reasonable hours and for any proper purpose to inspect the proposed work. Failure to comply with the above will result in a STOP WORK order.
