Description and Location of Tree(s) (If removal, please provide a reason): (1) Hornbeam near telephone pole on 2nd St needs shaping so that it does not grow too close to electric wires. (2) Maple along 2nd St is growing away from street and starting to grow over our roof and block all light to our property. Tree looks uneven and misshapen - bare on one side and overgrown on other. Straub recommends removal or if removal is not approved, then thinning on parts of tree within our property. The tree cannot be re-trained to have a better shape. Not certain if this tree is within 10 ft of 2nd St. & it provides no shade to street.
