Building and Impervious Coverage Form

Impervious surfaces (anything covered by impenetrable materials such as asphalt, concrete, brick, stone, rooftops, etc.) are an environmental concern because, with their construction, they eliminate rainwater infiltration and natural groundwater recharge. Therefore, in order to calculate the Total Impervious Area (TIA) of your property, please use the information below to complete the chart on Page 2.

FOR INFORMATION ON YOUR BUILDING COVERAGE:

- **PROPERTY SEARCH:** Go to northwalesborough.org, > Permits, Forms & Fees, > Montgomery County Property Records link at bottom of page > (this brings you to Montgomery County’s website’s Disclaimer page) > Agree
- At this point, you should be at the address search page. You can search for your property by Owner Name, Address, or Parcel Number.
- **LOT SIZE:** Once you are at your property location, under the Profile section, you can find your Lot Size
- **ACCESSORY STRUCTURES:** Check for any accessory structures which may have been reported
- **PLOT PLAN:** Under the Map section, you can print a copy of your Plot Plan
- **BUILDING COVERAGE:** Under the Sketch section there is information regarding dimensions of your house which can be added together. Garage information (FrGar) should be added under the “Garage” section. If information is provided for “CONCRETE PATIO” please include under Part B – Impervious Surface. **PLEASE ADD OR ADJUST INFORMATION AS NECESSARY.**
